

FOR IMMEDIATE RELEASE

LINDEN SURGICAL CENTER: NEW OWNERSHIP, NEW NAME

BEVERLY HILLS, Calif., Feb. 22, 2011 --- Linden Surgical Center of Beverly Hills (formerly Linden Crest Surgery Center), a fully accredited and Medicare certified ambulatory surgical center (ASC), announces its new name to highlight the changes in ownership and management.

Located near the intersection of Wilshire and Santa Monica Boulevards in Beverly Hills, Linden Surgical is a state-of-the-art facility with four operating rooms, a gastroenterology suite, and an experienced surgical staff. "I am honored to work alongside best-in-class surgeons and a dedicated and knowledgeable staff," says Dr. Edward J. Feldman, a partner and gastroenterologist at Linden Surgical Center. In addition to gastroenterology, the surgery center serves multiple other specialties, including: orthopedics, podiatry, otolaryngology (ear, nose and throat), gynecology, urology, pain management, plastic and general surgery.

David W. Odell, President of MedBridge, an experienced ASC management company, led the effort to re-establish Linden Surgical Center into the preferred choice for outpatient surgery. "Linden Surgical Center is quickly becoming a favorite for both surgeons and their patients. This comes as no surprise to us; patients receive top-of-the-line, compassionate care here," remarks Odell.

The center's ability to accommodate the scheduling and equipment needs of surgeons, according to Odell, also contributes to its growing popularity in the provider community.

About Linden Surgical Center

Linden Surgical Center provides quality and convenient outpatient services as a cost effective alternative to traditional inpatient hospital care. Medicare certified and accredited by the Accreditation Association of Ambulatory Health Care (AAAHC), the well-respected surgeons and staff combine state-of-the-art surgical equipment and technology with compassionate, individualized care. Conveniently located in the heart of Beverly Hills, Linden Surgical Center is proud to meet the outpatient surgery needs of patients from throughout the greater Los Angeles area.
